

## Smoothie Auto

The most awarded strain in our catalog.

- **Our most awarded genetics!** A multiple award-winning strain, impossible to go wrong with this one.
- **A fruity outburst.** Blended to perfection, a smooth smoke with an overwhelming fruity terpene profile.
- **Perfect for extractions.** Expect the unexpected, unimaginable top-shelf extractions.
- **Finely balanced.** Truly fine-tuned to bring you the best combination of Indica and Sativa effects.
- **Delightfully colorful.** Light green buds with beautiful purple hues, the perfect bag-appeal for commercial growers.

Smoothie Auto is the result of a cross between Somango and Blueberry, and really brings out the best of both worlds; a well-statured plant ideal for all types of growers. Reaching up to 23% THC, this strain delivers an uplifting giggly high. Not to mention its exceptionally fruity tastes making it an ideal choice for extractions.

### **Bud Appearance**

Fruity, sticky, resinous buds, as potent as they are tasty. Rock-solid nuggets that'll crumble when touched.

### **Smoke Report**

Balanced, yet Potent. This strain blends a euphoric head high with relaxing body effects. A great strain for a sun-time smoke, a weekend getaway, or a relaxed afternoon with friends.

### **Plant Appearance**

A well-structured plant that will grow a large main cola accompanied by some lower side branches, somewhat resembling an Indica, yet still with a good average inter-nodal spacing. During the later weeks of growth, some can expect purple hues to appear on the leaves.

### **Grow Tips**

This strain could be an interesting choice/ a good candidate for the more experienced growers looking to do LST or SOG. That said, new growers don't be afraid, she's easy-going and will fit nicely in a small grow room or cupboard, great for the more stealthy growers. A carbon filter is recommended as she can start to smell a bit strong once the flowering period starts. Growers can expect to start flushing at least 10 days before the end of the cycle.

### **Flavor**

Blended to perfection. This strain is the perfect balance of creamy, sweet, and smooth sensations. Tastes of Berry, with hints of vanilla make the smoke creamy yet with notes of sourness. A distinct sweet flavor will overwhelm your taste buds, all whilst the smoke remains smooth with no harshness on the throat.
