

## CBD Auto 20:1

Pure Medicine.

- **Genuine medicine.** Fast Buds' first 100% medicinal strain!
- **Legal in most countries.** CBD content of 20% and THC as low as 0.3%.
- **Your own medicinal shrub.** Due to the CBD content, it can alleviate pain and other disorders with mild psychoactive effects.
- **Several uses.** Make your own CBD edibles, oils and creams.
- **Fast flowering remedy.** This plant grows up to 90cm and produces around 500gr/m<sup>2</sup> in 70 days.

Fast Buds' first entirely medicinal strain, CBD 20:1. High in CBD at up to 20% and a THC content as low as 0,3%, making this strain legal in the majority of countries around the world. CBD 20:1 has the potential to alleviate many pains and disorders and with such low THC levels, this strain is perfectly suitable for those who are not regular cannabis users.

### **Bud Appearance**

Firm buds packed full of CBD and all of its therapeutic properties. Great for breaking up for a spliff, or especially useful for making extractions to create oils, creams, tablets, edibles, and all kinds of other medicinal products you wish to use.

### **Smoke Report**

Purely Medicinal. The perfect antidote to various ailments. In many cases, users claim to have found relief from issues such as anxiety, insomnia, chronic pain, inflammation, and others. CBD aka Cannabidiol doesn't produce any psychoactive effects, therefore this is a great option even for non-consumers. Before popping a pill, try popping some of these seeds.

### **Plant Appearance**

She grows quickly and vigorously. This strain can reach a height of 70-90cm, not huge, but give her the space she needs to allow all her therapeutic potential. CBD 20:1 produces tall and bushy plants, with a solid main cola.

### **Grow Tips**

You'll need to work fast as she's a rapid one. An 18/6 light cycle seems to work best with this strain. She's a hungry one so keep her fed, especially during the flowering period to get those fat, healthy nugs. Keep a steady eye for harvesting signs, in order to reap all the CBD benefits. In 9-10 weeks, you'll have your very own medicine tree.

### **Flavor**

Sweet and Subtle. Taking your medicine has never been so enjoyable. This sweet strain goes in smooth with notes of fruit and honey.
