

# Gorilla Punch Auto

Born to be strong.

- **A treat for the eyes.** Dark purple buds with magenta hues, your own garden of purple.
- **Fantastically balanced.** The ideal effect for those who need to stay in a positive drive and get work done.
- **Extremely strong.** 26% THC, every hit is a knockout.
- **Terpenes fit for a king.** An ideal strain for hash makers and extractors.
- **Full-flavored yields.** Up to 550g/m<sup>2</sup> of delicious terpene-rich flowers!

Gorilla Punch Auto arises from a cross between two exceptional autoflower genetics. This gorgeous autoflower produces beautiful dark purple buds with as much as 26% THC, and delivers everything a top-shelf autoflower should: amazing flavors, a potent effect, and huge yields of up to 550gr/m<sup>2</sup>, making it a must for growers who are looking to get impressive results in 56-63 days without any extra effort. A great all-day strain for those looking for a perfectly balanced effect that'll give you that extra boost you need for creative exploration while reducing anxiety, and a delicious terpene profile ranging from creamy lemongrass to a woody and earthy herb mix that coats your palate and leaves you salivating for more.

## Bud description

Expect chunky purple colas engulfed in resin. Gorilla Punch Auto grows gorgeous buds that dazzle with a mixture of light and dark purple hues. On top of that, the bright-brown hairs all over the small-sized yet extremely dense nugs makes them an absolute treat for the eyes and gives them that top-shelf look all growers want. If the looks already won you over, then the smell will keep you coming back for more. As soon as you break open a nug you'll instantly get a hint of the delicious terpene pot-pourri. It starts as a pungent gassy smell that slowly reveals a much more complex terpene profile that cannabis connoisseurs will appreciate.

## Smoke report

Due to the high THC content, this strain hits hard and after just a couple of hits, you'll be chattering away like never before. Gorilla Punch Auto is a great strain for social scenarios and those looking to lift their moods up or tap into their creativity while still benefiting from the medical properties this strain has to offer. Thanks to the Indica side, this strain gets you in a focused state of mind and mellows out anxiety, allowing you to stay in a positive drive for the whole day. Those not used to potent strains should start with smaller doses and ease into it as this is a powerful strain that'll get you couch-locked if you don't have a high enough tolerance.

## Plant appearance

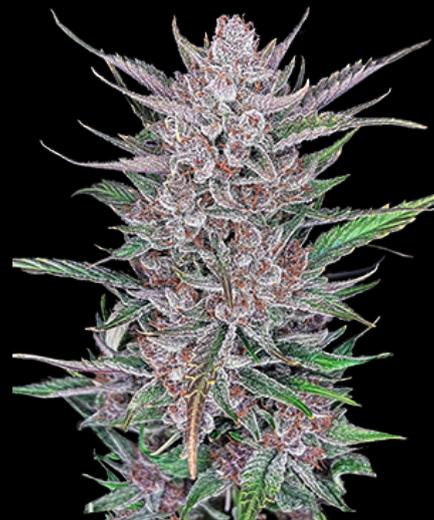

This strain grows quite tall, reaching a maximum of 120cm and developing fairly wide leaves with thin fingers, typical of hybrid varieties. Gorilla Punch Auto is ideal for newbies who can get yields of up to 550gr/m<sup>2</sup>, so expect lots of shiny golf-ball-sized buds from head to toe without any extra effort. Thanks to the exceptional genetic selection, the thick buds are perfectly placed throughout the main cola and branches and develop with little leaves, making your grow cycle as smooth as possible from seed to harvest.

## Grow tips

Gorilla Punch Auto produces insanely dense buds so make sure to get a couple of bamboo stakes or a scrog net to prevent the branches from snapping as you definitely don't want any problems during the last couple of weeks. As flowering begins, your whole grow space will be overwhelmed with pungent aromas so have a carbon filter and exhaust fan prepared, and make sure they're enough for the size of your grow space. It's highly recommended to tie down the branches as it allows you to maximize light efficiency and improve airflow between the buds, preventing mold and other pests from attacking your plants.

## Flavor

This variety's terpene-rich buds are packed with taste and will make you salivate as soon as you start grinding them. The unique smell has a sweet background that smoothes out the smoke and rounds it up, resulting in an exceptional flavor that starts as sweet and sour citrus on the inhale and gradually turns into a creamy lemon mousse with a powerful clove and cinnamon background on the exhale.

## Tech Specs

### Taste:

Spicy, Lemon, Woody, Peppery

### THC:

Up to 26%

### CBD:

< 0.5%

### Harvest EU Indoor:

450 – 550 gr/m<sup>2</sup>
