Wedding Cheesecake FF boasts chunky, large-sized buds with a thick layer of silvery-white resin and bright orange hairs scattered all over: that just screams 'quality'. The lime-green flowers sparkle with an array of hues ranging from dark to light green, to magenta and purple, and reek of a delicious aroma that'll remind you of fresh store-bought cheesecake. As you break the buds open, expect a deliciously cheesy and creamy aroma with a citrus zest to it and a sweet nuttiness that rounds it up and smoothes out the smoke.

Expect an effect that's just as delicious as the aroma. This strain's effects are more cerebral than physical and start as a powerful cerebral rush that lifts your mood, leaving you in a nice state of happiness that eliminates all negativity and stress. As you continue to smoke, the strong body high starts to creep up and puts you into a calm, deeply relaxing state that takes the edge off and puts you in a peaceful state of mind. Wedding Cheesecake FF offers a powerful yet finely balanced mix of Indica and Sativa effects, allowing you to experience the best of both worlds.

## Plant Appearance

This is an XXL hybrid that grows extremely tall in height, reaching up to 3m with one huge main cola and multiple long side branches that can withstand enormous yields of up to 650 g/m<sup>2</sup> with ease. Wedding Cheesecake FF is extremely resilient to the elements and can be grown in almost every climate as long as you've got the space and basics covered, making her an excellent choice for those looking for large-scale harvests with a quick turnaround time without much effort.

## Grow Tips

This is a super fast feminized photoperiod version that takes approximately 7-8 weeks to flower with a 5-week vegetation cycle, this means you can have faster harvests by shortening the veg cycle or have a longer veg cycle for bigger yields. In order to enhance the delicious creamy/cheesy flavors even more, make sure to flush thoroughly during the last weeks of harvest.

It's highly recommended to tie down or scrog Wedding Cheesecake FF (Fast Flowering) as it develops long side branches that respond really well to LST techniques and will reward you with even denser buds.

## Flavor

Wedding Cheesecake FF offers a distinctive mix of sweet, earthy, and fruity terps that tastes just like baked tart and creamy cheesecake. As you inhale, expect a creamy nutty vanilla taste with hints of cinnamon that fill your whole mouth with creamy deliciousness. And as you exhale, the creamy, nutty flavors open up, giving place to a powerful blend of citrus zests with touches of floral and herb terps that are out of this world. Truly bold and complex flavors that taste just as it smells and will keep you guessing after every pull of a joint.
